DETAILED ACTION

1. In view of the Brief filed on 6/7/2007, PROSECUTION IS HEREBY REOPENED.

A new ground of rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below:

EILEEN LILLIS
SUPERVISORY PATENT EXAMINER

Before making this rejection a telephone call was made to Mr. Paul B. Savereide, Reg. # 36,914 at (612)252-1550, in order to resolve this issue. But, the telephone call fail to resolve the issue, making this rejection immanent.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the

Art Unit: 2624

art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 31-43 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The limitation of "allowing selection of a region of the compressed medical image at the second location" in claim 31, is not enabled in the specification. Claim 36 recites the limitation of "receiving said compressed medical image, a viewing part enabling said image to be views, and enabling a region of said image to be selected", the applicant argues that the compressed image is viewed at the second location but fail to demonstrate the enablement of these limitations as claimed in claims 31 and 36.

Claims 32-35 and 37-43 are rejected by the virtue of their dependency.
